

Paint 360™

Best Practice for Paint

Paint is received nationally from House Waste Recycling centres at our dedicated waste paint transfer station

Every can is opened stirred and tested for quality

Sorted by type, colour, brand and recorded for traceability

Social enterprise focused - developing the young hard to reach long term unemployed as the core of our workforce

In the **UK** an estimated **67 million litres** of **paint** a **year** is **sent** to **landfill** or **incinerated**. **Paint** is too **valuable resource** to **waste**. **Paint360** contract emulsion has a minimum **95% recycled content**.

Waste paint is **re-engineered** into a **quality product** to **compete** with **leading brands** on **quality** and **price** available **nationally**

1 litre saves enough **embedded carbon** to **drive** a transit **van 5 miles carbon free**

Available through **Travis Perkins & Buildbase**. **Save money, lower carbon** and **increase closed loop recycling**

Ticks all the right boxes

OFFSET YOUR CARBON EMISSIONS WITH PAINT 360

Research provided by
the Carbon Footprint
Company taken from official
DEFRA statistics

Run your van fleet carbon FREE 1 litre of paint saves 5 miles of carbon*

Paint 

PAINT 360 re-engineer waste water based paint back into high quality emulsions for the trade. Established in 2012 we have won many awards for quality, innovation and our environmental ethos. Based in the West Midlands and working in conjunction with Travis Perkins and Willmott Dixon we have developed a unique offering. We recycle waste water based paint and all containers working closely with HWRCs, waste transfer stations and retail outlets.

Supply chain
Green solution
award winner 2013

SKANSKA

In 2013 Paint360 won the prestigious Supply Chain Green Solution Award from Skanska. As part of the award Skanska offered Paint360 time with key departments and personnel. Data compiled by Bath University was used in conjunction with calculations for our internal processes, equipment and ingredients. These calculations were presented to the Carbon Footprint Company Limited who checked, researched and validated the results.

PLEASE REFER TO FIGURES 1-3 ON THE 2ND SHEET FOR DETAILS

Carbon Footprint Limited provide a range of carbon management services including assessing your carbon emissions, verifying calculations, through to providing high quality carbon offsets to make your business carbon neutral. They specialise in helping businesses remain compliant, ensuring they meet their carbon and energy legal and supply chain obligations through services such as:

- ▶ Energy Savings Opportunity Scheme (ESOS)
- ▶ Carbon Reduction Commitment (CRC)
- ▶ Mandatory Greenhouse Gas (GHG) Reporting
- ▶ Climate Change Agreements (CCAs)
- ▶ Display Energy Certificates (DECs)
- ▶ Carbon Disclosure Projects (CDP)
- ▶ Global Reporting Initiative (GRI)
- ▶ CEMARS
- ▶ ISO 14001
- ▶ ISO 50001
- ▶ ISO 9001

* based on statistics from Defra for an average sized Transit van, depending on weight and speed.

SUPER MATT VOID EMULSION

360

SUPER MATT EMULSION WITH EXTRA COVERING POWER

White and Magnolia stocked with **full colour matching service available** to BSI or RAL number

White

Magnolia

SAVE TIME with our super matt void emulsion, especially formulated to be durable and hardwearing. Very high coverage rates for painting out unsightly marks and blemishes which makes it ideal for social housing.

PAINT 360 uses waste paint heading to deep landfill or incinerators to manufacture high quality emulsion. We re-engineer the waste paint and therefore reduce carbon footprint in the disposal, save up to 70% of raw energy when compared to manufacturing virgin paint and as we recycle we also limit the depletion of natural resources.

PLEASE NOTE

The colours shown above are simply illustrative of the range available. Please contact us for more accurate colour samples or with any questions. Minimum order of half a pallet at a time per colour.

FUNGI BLITZ

MOULD RESISTANT FUNGICIDAL WASH

WIPE OUT ALGAE AND MOULD WITH FUNGI BLITZ WASH

Clear mould and algae before washing the contaminated and surrounded area, leave to fully dry before painting. For maximum long lasting results use with Paint 360's range of anti-mould coatings.

Excellent at removing surface attacks, for long lasting protection use in conjunction with Mould Seal Primer to provide the perfect surface for overcoating with Mould Resistant Paint and Eggshell Mould Plus.

HSE NUMBER 9824

PAINT360 uses waste paint heading to deep landfill or incinerators to manufacture high quality emulsion and masonry paint. We re-engineer waste paint back into a range of high quality emulsions for the trade with each litre containing a minimum 90% recycled content. Recycled content minimises embedded carbon for basic material preparation which reduces our carbon output when compared to premium branded paints.

Each litre of paint saves enough carbon to run a medium sized van **FIVE MILES CARBON FREE** as verified by The Carbon Footprint Company Limited.

360

MOULD SEAL

WATER BASED BIOCIDAL BARRIER COATING

LONG TERM PROTECTION AGAINST MOULD

PAINT360 Mould Seal contains powerful slow release biocides combined with film forming polymers to protect surfaces from mould regrowth and attack.

Mould Seal works in conjunction with PAINT360's Fungi Blitz and Mould Resistant Paint to provide long term protection. Apply Mould Seal to all affected surfaces after sterilising with Fungi Blitz to provide a highly effective barrier coat for final decoration with Mould Resistant Paint.

HSE NUMBER 10167

PAINT360 uses waste paint heading to deep landfill or incinerators to manufacture high quality emulsion and masonry paint. We re-engineer waste paint back into a range of high quality emulsions for the trade with each litre containing a minimum 90% recycled content. Recycled content minimises embedded carbon for basic material preparation which reduces our carbon output when compared to premium branded paints.

Each litre of paint saves enough carbon to run a medium sized van **FIVE MILES CARBON FREE** as verified by The Carbon Footprint Company Limited.

COMPACT SPILL CATCHER

ULTRA POWERFUL ABSORBENT GRANULES

360

SUPER LIGHT RE-SEALABLE AND REPLACEMENT POUCHES

THIS KIT INCLUDES:

2 x 5L Stand up re-sealable Pouch of Spill-Aid

1 x Absorbent sock

5 x Absorbent pads general purpose

+ PPE, Gloves, Goggles and a Mask

Spill-Aid absorbs more fluid than any other comparable absorbent on the market. It has the ability to absorb up to 30 times more fluid than clay based granules and is at least 5 times more absorbent (pound for pound) than any other absorbent on the market. Just 1 x 5L pouch will absorb 3.5L of fluid.

This will deal with a spill of 20L paint
